**Clinton Township Board of Education**

**District Reorganization**

**2018 Staff Recognition**

As you know, this past summer was a very busy one here in the Clinton Township School District. The May 31<sup>st</sup> recommendation and decision to move forward with the reorganization of our buildings in order to enhance the academic and co-curricular offering that our student's would receive, while providing a savings of approximately \$1M – required a lot of work, precision planning and execution. The reorganization of the district would not have been a success if it were not for the dedication and loyalty of so many members of the Clinton Township staff.

Michele Cone, our Acting Superintendent of Schools, Joanne Hinkle, Acting Director of Special Projects, our principals, assistant principals, supervisors, our maintenance and custodial staff and summer help – and Sue High, Director of Special Projects, AKA District Classroom Fairy, worked exceptionally hard throughout the summer to insure that the reorganization of the district went as smoothly as possible, and that our classrooms were organized for the arrival of our staff and children. The Board of Education would like to thank them all for their hard work this past summer.

When the Board voted to accept the recommendation of the superintendent of schools to reorganize the district, it became very apparent to all that it was going to take a collaborative effort with everyone in the district to ensure that all four buildings would be clean, organized and ready to welcome back the members of our staff, and our children from the summer months.

The Board would like to take a moment to recognize a special group of people that went far above and beyond their given role and our expectations with their efforts to make sure that when our school doors opened, they were ready for the staff and our children.

From their perspective, there was not one task or challenge that was viewed too big for them tackle. They were energetic and had continuous smiles on their faces no matter how big the task was or how hot it was in the building or how many obstacles got in the way of them achieving their goal. Not only did these folks have tasks to complete involving the reorganization, they had their normal expected summer work responsibilities to help prepare the facilities and grounds for the new school year.

This following is just a short list of the numerous responsibilities, jobs and tasks that they took head-on and accomplished this summer. The short list includes:

- Annual cleaning of all classrooms and hallways
- Striping and Waxing of all floors & hallways
- HVAC filter replacement
- Plumbing repairs
- Water fountain repairs
- Roofing repairs
- Electrical repairs
- Generator maintenance
- Ceiling tile replacements
- Airedale cleaning and servicing
- Cleaning of HVAC coils
- Boilers - cleaning and inspection
- Removal and installation of smartboards
- Installation of AC units at both PMG and RVS including metal fabrication to create space for the units & electrical wiring and upgrades for each unit (12 units)
- Internal classroom moves within each building (32)
- Lowering of white boards
- Lowering of soap dispensers
- Removal of coat racks
- Relocation of electrical outlets (higher locations)
- Removal of power poles in classrooms

At this time, the board of education would like to acknowledge each of these staff members individually for their hard work and dedication to the district, and for making the reorganization a true success.
