**Clinton Township Board of Education**

**Strategic Planning Information**

**Invitation to Last Session**

**April 25, 2019 – 7 pm – CTMS Auditorium**

The district's Strategic Planning process is in its final stages moving towards completion. When completed the final strategic plan will set the direction for how the children of Clinton Township will be educated from an academic, social and emotional perspective for the next five years.

The district's administration and staff, members of the board of education and a variety of stakeholders from the community have participated in two sessions of the district's strategic planning process. Each planning session has been summarized in two separate documents, and those individual summaries can be found on the district website under the board of education tab.

There is one remaining strategic planning session. Upon the completion of this last session, the general goals for the plan will be finalized and then our district's administrators and staff will build the programs and tactics required to fulfill the five year plan. The final session was scheduled to be held during the February timeframe. Unfortunately, Mother Nature was not kind to us, and shared some inclement weather, causing us to postpone this final session.

The new date for this final session has been rescheduled for Thursday, April 25, 2019 – at 7 pm in the cafeteria located in the Clinton Township Middle School. We recognize that this new date falls during the first couple of days back from spring break. Unfortunately, our NJSBA representative who leads the strategic planning process, is booked as a result of the inclement weather. This was the only available date that she had to available to offer.

On behalf of the full board of education, I would like to invite everyone to attend the final Strategic Planning session. Participants in this planning process are not required to

participate in prior meetings in order to join us for the final meeting. We look forward to seeing members from our staff, parents and community stakeholders at the last session!
